**TEXAS-BASED ENERGY LAW FIRM OF BECKMEN LAW, P.C.
UNDERGOES REORGANIZATION, EXPANSION OF LEGAL SERVICES**

Beckmen Law, P.C. today (December 8, 2014) announced a major reorganization and expansion of its legal services and offices across the United States, according to Scott Beckmen, founder and managing partner. The nationwide law firm provides legal services in the energy, real estate, and corporate business sectors with a focus on transactional and regulatory compliance.

“Our on-the-ground legal experience in all aspects of the energy industry has afforded us the expertise to assist clients who are buying, selling or financing in real estate transactions,” said Beckmen. “Additionally, because of our in-depth knowledge of our clients businesses, we now provide asset management services.”

Beckmen said the law firm, previously known as Beckmen, Cherkassky, Dean & Associates, has been restructured to make certain the highest standards and attention to the needs of clients large and small are upheld during the Law Firm’s expansion. “Our clients count on us for reliable, efficient and cost-effective services in long and short term projects, and we understand how to work within budgets large and small,” he added.

Beckmen’s headquarters is located in Dallas/Fort Worth near the Dallas Fort Worth International Airport. Offices are in Canonsburg, PA; Denver, CO; Midland and San Antonio, TX; Clarksburg, WV, and Bakersfield, CA.

The firm was founded by Beckmen in 2010 during the continued ramp up of oil and gas drilling in the many active plays across the nation. Beginning at that time and continuing today, Beckmen provides superior land, title, contract, transaction, regulatory, and litigation services to major and independent energy companies throughout the United States.
